CORE SKILLS

- Python, R and Microsoft Excel
- Data visualisation and dashboards
- Budgeting and variance analysis
- Excel VBA
- Quantitative and statistical analysis
- Professional communication

CERTIFICATIONS

- Data Analysis with R Programming**
Google, 2023
[View certificate](#)
- Introduction to Microsoft Excel**
Coursera, 2023
[View certificate](#)
- Technical Support Fundamentals**
Google, 2023
[View certificate](#)
- Java (Object-Oriented Programming)**
LinkedIn Learning, 2022
[View certificate](#)

LANGUAGES

- English (Fluent)
- Kiswahili (Fluent)

PERSONAL PROFILE

Results-driven data analyst with a background in actuarial science from Chuka University. Experienced in leveraging Python, R, and advanced Excel to build interactive dashboards, track variances, and extract actionable insights. Passionate about applying quantitative methods to solve business challenges in insurance and finance teams.

EXPERIENCE

- Excelerate**

Remote
- Data Visualization Intern

Nov 2025 – Dec 2025

 - Created interactive charts and dashboards using Python, Excel and R.
 - Cleaned and analysed datasets to support visual reporting.
 - Presented insights through structured data visualisations.
- Machakos County Assembly**

Machakos, Kenya
- Budget Assistant

May 2025 – Aug 2025

 - Assisted in preparation and analysis of departmental budgets using Excel and VBA macros.
 - Supported expenditure tracking and variance analysis.
 - Contributed to financial reports and documentation for audit purposes.

SELECTED RESEARCH

- Retirement Adequacy Research**

2026
- Led a six-member research team studying retirement adequacy for informal-sector workers using financial diaries and actuarial modelling.
 - Analysed 3,000 participant-day records from 100 participants across boda-boda, vendor and artisan groups.
 - Built a 10,000-iteration Monte Carlo model; a 10% contribution rate produced a 0% probability of reaching the 40% replacement-rate benchmark across all groups.

EDUCATION

- Chuka University**

2022 – 2026 (awaiting graduation)
- BSc Actuarial Science, Second Class Upper Division

 - Research project: Stochastic Modelling of Retirement Adequacy and Replacement Rates for the Informal (Jua Kali) Sector in Chuka Municipality.
- Kathiani Boys High School**

2017 – 2022
- KCSE, Grade B-

REFEREES

- Edwin Misati**

Lecturer, Actuarial Science, Chuka University
- Elizabeth Magero**

Lecturer and Section Head, Actuarial Science, Chuka University
- Full contact details for both referees are available on request.
